

Welcome to Ultralingua 7!

Instant verb conjugation, full-screen Core Animation flashcards, number translation, a quick-access Dashboard widget, a system-wide hotkey, and more.

Installation

Downloading Ultralingua 7 should automatically extract Ultralingua to your Downloads folder. Simply drag the Ultralingua folder to the desired location on your computer (we suggest the Applications folder).

Upgrading

If you used a previous version of Ultralingua, you'll want to preserve any dictionary entries you've added. Here's how:

- 1 Locate the Dictionaries folder, found near the old Ultralingua application installed on your computer.
- 2 Open the Dictionaries folder and drag any files ending in "-additions.uld" to the Desktop.
- 3 Follow the installation steps above.
- 4 Locate the Dictionaries folder that's now in your desired installation location, and drag the "-additions.uld" files into that Dictionaries folder.

Your dictionary entries should now be accessible from Ultralingua 7.

Purchasing

You can try out each Ultralingua dictionary for 10 days. After the trial period, you'll need to purchase Ultralingua dictionaries to continue using them. Visit our web site for access to our secure online store:
